## RELEVANT EXPERIENCE

---

### Web Developer

**1Password | New York, NY (Remote - Located in NYC) | March 2019 - Current**

- Plans and implements upgrades to live and local development. This includes changes to front and back end, pipeline adjustments, updating dependencies, and fixing regressions.
- Pushes fixes to content and model on live sites, and researches solutions.
- Works with internal APIs, front and back end technologies, including but not limited to JSON, GoLang, and React, all within a cross-platform site.
- Makes improvements to SEO, UTM information, form data, and Google Analytics code.
- Investigates with multiple teams through Slack, GitLab, GitHub, Inky, and internal database tools. Writes issues, finds related solutions, and proposes future feature development.

### Programming Instructor

The Coding Space | New York, NY | January 2019 - March 2019

- Taught JavaScript, HTML/CSS and Scratch in a school setting.
- Tutored children individually and in small groups to help with difficult subjects.
- Observed and assessed student performance, keeping thorough records of progress through daily evaluation.
- Accepted coaching from fellow teachers and administrators and immediately incorporated feedback.

### Web Designer and Developer

Freelance | January 2017 - June 2018

- Created web prototypes including wireframes and HTML mockups for branded and unbranded websites.
- Ensured website was securely integrated with client's hosting account and protected client's content through SFTP.
- Worked with HTML/CSS, and Bootstrap framework to sell products on a web-based platform.
